FAQ

Q: Is the product I see on the website currently in stock?

- The catalog reflects real-time inventory, so if a product is listed as available, it is in stock at the shop and ready for regular order.
- If an item is out of stock, it will be marked as such.

Q: How do I know if a part is compatible with my motorcycle?

- Use the compatibility checker by entering your motorcycle's brand, model, and year before ordering.
- The checker only covers products and brands currently in Edmar Motorcycle Parts and Accessories' inventory, not a general database of all parts worldwide.

Q: What is a pre-order and when do I use it?

- Pre-order is used when a product is currently out of stock, so you reserve it ahead of restock instead of missing out.
- Select the product, click Pre-Order, then pay a 50% downpayment through GCash to confirm your reservation.

Q: When do I pay the remaining balance for a pre-order?

- The remaining balance is paid upon pickup, once the item has arrived and is ready at the shop.
- You will be notified through your account once your pre-ordered item is ready for pickup.

Q: What payment method is accepted?

- Payment is made through GCash for both downpayment and full payment.

Q: Is a printed receipt provided after purchase?

- No, the shop does not issue a printed receipt. A digital receipt is generated and saved under your Order History instead.

Q: How do I check the status of my order?

- Go to your account to see the current status, such as Pending, Downpayment Received, Ready for Pickup, or Completed.

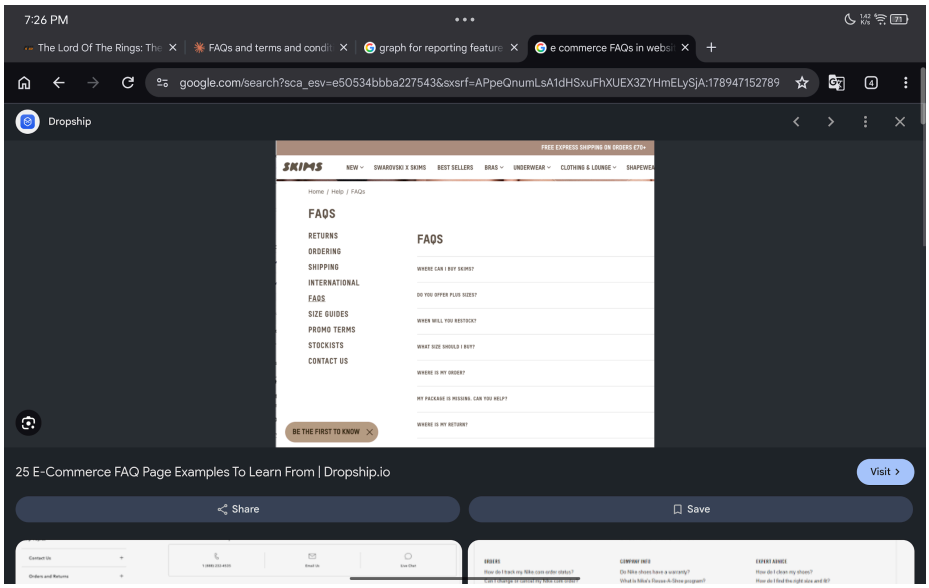

Q: Can I cancel my order?

- Yes, even if it is fully paid or has a downpayment, as long as you have not picked it up from the shop yet.

Q: What if the product I received is damaged?
- You may return it and request a refund if the item is defective or damaged, subject to review to confirm the damage is a product defect and not caused by mishandling after pickup.

Q: Why do I need to read the Terms and Conditions before paying?
- It explains the payment, refund, cancellation, and compatibility checker rules before your order is confirmed, since these directly affect your purchase.
